Had my deck French door replaced with a French sliding glass door. It is beautiful and I love it! Price was reasonable and installation was good. The quality of the door is top notch. The installer left the area clean and made sure the door was wiped down. Garry, the salesman, was informative and not overbearing. Enjoyed doing business with Utah Valley Window & Door.

I needed a single window installed. Garry showed up that day and told me size of opening needed. His price was far better than Lowes or Home Depot and his delivery time way faster.

Two weeks later the window was installed by a very proficient person and it looks terrific.

Great install. The guys were professional, courteous, and helpful. They took the time to explain the steps of how the install was going to go.

They picked up every piece of widows they tore out. Product was spot on. Great job guys. Thank you.

I got many quotes for new windows after buying our house, and Utah Valley Window & Door (specifically Garry) was by far the most honest, transparent, well-priced company I spoke to. We did half our project now, and will definitely be coming back to them to finish the job. They were in and out in one day, and I am super impressed with the results! Highly recommend!

Had a really great experience with Garry. He was really knowledgeable and no pressure. We decided to postpone window replacement but he offered to get us a replacement window screen at no charge and came by and installed it. It looks great and we appreciate his service. Would absolutely recommend this company for their kindness and customer care approach.

Utah Valley Window and Door crew members Jose and Marcos did an excellent job cutting and installing a new window into our home entryway. I will definitely recommend Utah Valley Window and Door to friends and family that have need for projects.

We ran into some issues with our stucco siding and roofing that was impacting our windows. We received a recommendation about Utah Valley Window and Door from our exterior contractor that they prefer to work with and we are so happy we followed through with them! Garry and his team were awesome! We replaced ~30 windows and 5 exterior doors. The price was fair, the work was efficient and well done, and I really felt like Garry was willing to work with us and listened to what our needs were and what we wanted to do. We decided to do lots of project this year and multiple contractors are involved and we just felt really comfortable with this group. We would highly recommend this company and we will use them again for future projects. Patient, reliable, and they stand behind their work.

I got two bids. Utah Valley Window & Door was about half. At first nervous I might be taking a chance, the results exceeded my expectations! Excellent service all the way through from order to install to internal trim work matching. Thank you guys!

I'm really impressed with Garry Marino and his crew. He runs a very tight and efficient operation. If you're getting bids and they're coming back at \$1500+ per window, you're paying for the overhead of an inefficient business model. Call Garry for a quote. These windows are as good as anyone else's, I guarantee it!

The person in charge of our project, Garry, was on top of everything. He went the extra mile to be sure everything was done well. I would recommend UVWD for any window project!
